by linguajunkie.com

The best site for language resources

Who is this for? For brand new learners of Korean who don't know any words and want to boost their vocabulary. Ideally, you should be familiar with Hangeul. If not, [click here](#) for a Hangeul PDF.

About this PDF: Inside this PDF, you will find 120 Korean words on flashcards.

These are the most common, basic words that a brand new learner needs to know. Your job is to save this PDF and review the words. You can (and should) also print out the flashcards so that you can review them by hand.

Each word comes with the Korean, the romanization, and English. Linguajunkie (me) hopes you enjoy it.
